

Swiss Alliance for
Data-Intensive Services

A Swiss technology network for innovative companies, academic institutes and individuals with a focus on data-driven value creation: services, products and business models based on data.

Call for Participation

Leverage your innovation

www.data-service-alliance.ch Together we move faster.

Community instrument: Call for Participation

Get support from the community

Did you know that you can ask your colleagues in the Alliance for support concerning your challenges, in a safe and confidential process?

A **call for participation** may improve your projects substantially. With trusted partners in the community you can realize your ideas better than alone. If you are an Academic Member you can find the appropriate business partner, if you are an Industrial Member you can find the adequate research partner.

What is the general setup?

- You as requester decide what kind of information you want to share. Make sure that you share enough to allow others to find out if and how they can contribute.
- You decide which persons within the Alliance you want to invite.
- The decision on whom to invite for the first meeting, and whom to select for the final project consortium will be made by the requester only, based on the expected contribution.
- All information exchanged during the process may be classified as confidential.

This is how a “Call for Participation” works:

Swiss Alliance for
Data-Intensive Services

Supported by

Schweizerische Eidgenossenschaft
Confédération suisse
Confederazione Svizzera
Confederaziun svizra

Swiss Confederation

Innosuisse – Swiss Innovation Agency

The members and their activities shape Switzerland's digital and data-driven landscape

More than 400 innovators from industries and academia create an inspiring and lively innovation ecosystem

Support more than 6 large conferences, more than 30 community events per year

Host more than 10 Expert Groups on all data-related issues covering technology, business models, legal and ethical aspects

Offer dedicated innovation program for Industrial Members: Profit from the best knowledge pool in Switzerland and public innovation funds

Provide large education program for professionals in all areas of data-based business

SDS: Our annual Swiss Conference on Data Science brings together more than 500 specialists from industries and academia
