

16.01.2019 HES-SO MASTER INNOSUISSE-NTN WORKSHOPS ON DATA SCIENCE

Open-source tool for data manipulation - KNIME

This Workshop on Data Science brings together researchers and service leaders in order to share knowledge and support projects with data science tools.

The goal of the Workshop is to share knowledge on data science principle, tools and applications. You will get an overview of the Innosuisse National Thematic Networks (NTN) - **Swiss Alliance for Data-intensive Services (data+service)**

Swiss Alliance for
Data-Intensive Services

14h00

INNOSUISSE NTN Data-Intensive Services – 15 min

Data Analysis and data integration Labs @ HES-SO – 10 min

Use case1: road detection based on machine learning – 20 min

Use case2: text mining based on KNIME, an open access tool for data manipulation – 20 min

Use case 3 : Renewable Energy Prediction with machine learning, Best paper award - IW BIS 2018 – 40 min

HES-SO Master

Avenue de Provence 6

Lausanne, 1007
