

Swiss Alliance for
Data-Intensive Services

A Swiss technology network for innovative companies, academic institutes and individuals with a focus on data-driven value creation: services, products and business models based on data.

Expert Groups

Participate where you are a professional

www.data-service-alliance.ch Together we move faster.

Expert Groups are the place to discuss and handle real and relevant use cases.

Aimed at the professionals of our Industrial and Academic Members.

The goal is to allow participants to learn from each other, and engage into collaborations (e. g. innovation projects, white papers, services).

Expert Groups create a value for the Alliance by presenting results of general interest and participating in events. Expert Groups exchange their best practices by allowing cross-participation to their meetings.

One Academic and one Industrial Member lead each Expert Group.

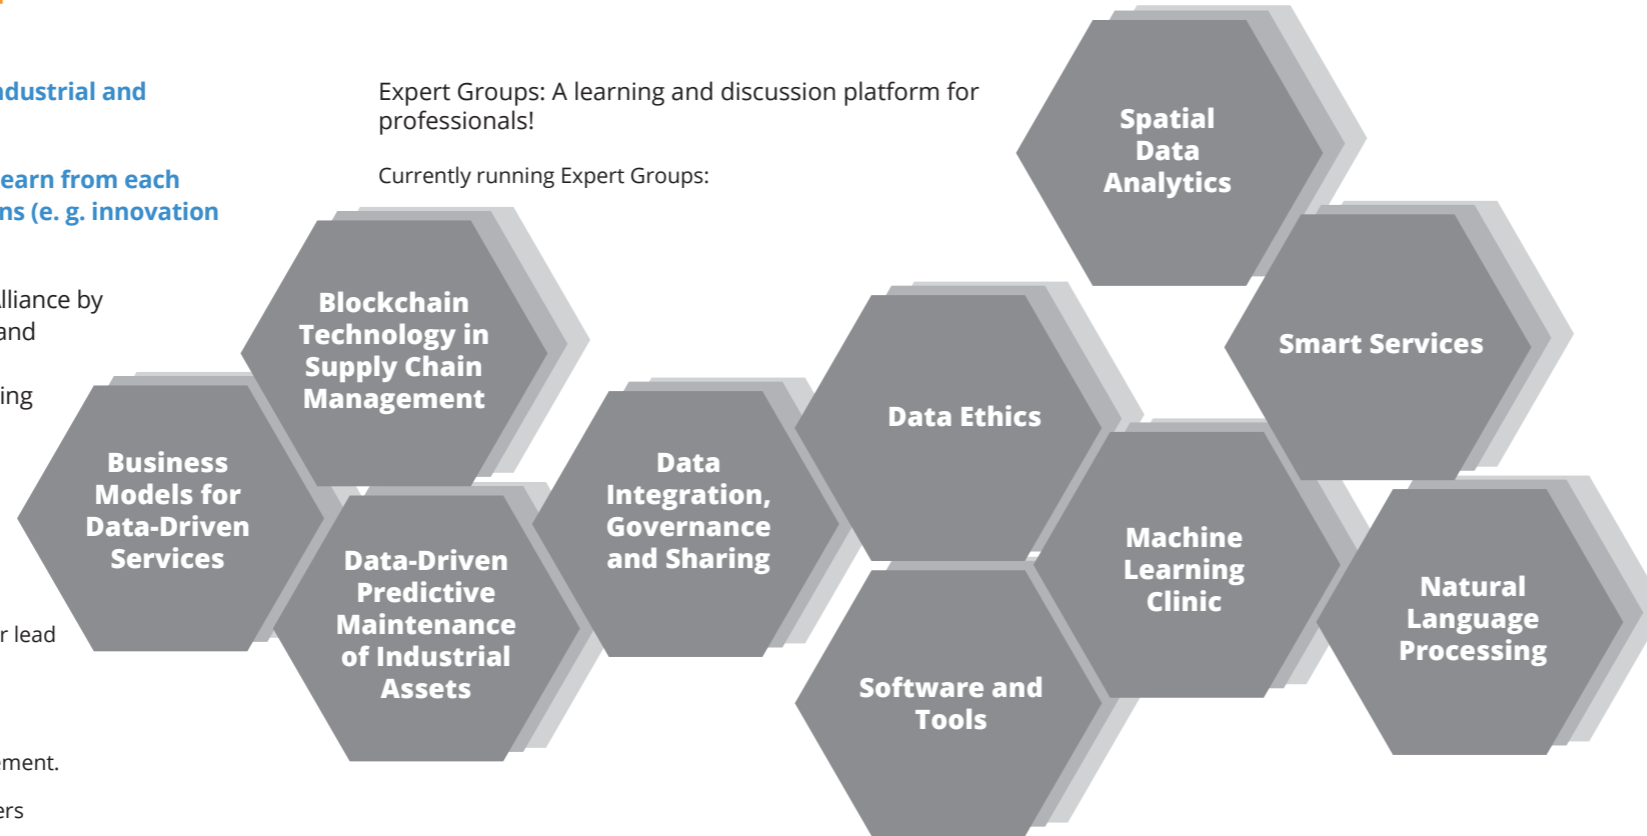

Each group meets 4 times per year.

Interactive format allows personal involvement.

Thematic workshops with external speakers bring new perspectives.

Expert Groups: A learning and discussion platform for professionals!

Currently running Expert Groups:

Expert Groups are focused on a specific area of interest, and bring key players in close and highly engaged contact with each other. Expert Groups are designed to discuss and handle use cases.
